E.H. PEET	Public Health Inspector
T.E. HOLLINS	Public Health Inspector
D.S. WHITE	Technical Assistant
I. CLARKE	Pupil Public Health Inspector
J.C.M. POTTER	Pupil Public Health Inspector
R.J. BLEASE	Chief Administrative Assistant
G.E. LATHAM	Clerk
MRS. J. ADAMS	Shorthand Typist
MISS. J. WARBURTON	Shorthand Typist

To the Mayor, Aldermen and

Councillors of the Borough of Crewe.

October, 1970.

I have the honour to present to you my report on the health of the Borough of Crewe for the year 1969.

#### VITAL STATISTICS

During 1969, 19 infants died before reaching the age of 1 year and the infantile mortality rate of 23.34 per 1,000 live births is again high compared with the England & Wales figure of 18.0. 9 of these babies died during the first month of life. The total number of births shown (814) shows a further fall, and is the lowest total in the decade. The number of illegitimate births (93) shows an increase of 8 on the 1968 figure and this, together with the lower number of births gives a record high illegitimate live birth rate of 11.4%. Last year's figure was 9.8%. The corrected live birth rate (15.9) remains lower than the national figure for England & Wales (16.3).

The total number of deaths, 681, is again higher than the ten years average figure, (approximately 600) which is comparable as our population remains static, and the corrected death rate 15.2 is high compared with the England & Wales figure (11.9). The table on pages 9 to 13 shows the causes and ages.

#### INFECTIOUS DISEASES

The table on page 15 gives details of these and shows that 1969 was a relatively good year having a very low incidence of these diseases.

Details of immunisations and vaccinations and brief information on other work carried out is included in the Report.

I remain,

Your obedient servant,

D.G. CRAWSHAW.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

GENERAL STATISTICS

Area (Census 1961) ... ..	4,386 acres
Population (Census 1961) ... ..	53,394
Registrar General's Estimated Population 1969	51,960
Number of Inhabited Houses (1st April, 1969)	17,617
Rateable Value (1st April, 1969)	£2,043,917
Sum Represented by Penny Rate (1968/9) ... ..	£8,138. 1s. 1d.

VITAL STATISTICS FOR THE YEAR 1969

MOTHERS & INFANTS

Particulars of New Cases and Deaths

During the Last Five Years

	New Cases		Deaths	
	Pulmonary	Non-Pulmonary	Pulmonary	Non-Pulmonary
1965	13	-	4	-
1966	6	-	9	-
1967	4	1	3	-
1968	5	1	5	-
1969	7	-	2	-

The following tabulated summary indicates the number of cases remaining on the register at 31st December, 1969.

	Pulmonary		Non-Pulmonary	
	Male	Female	Male	Female
No. of cases on Register of Notifications on 1st January, 1969	69	34	4	5
No. of cases notified for the first time during the year	6	1	-	-
No. of cases transferred from other districts	1	1	-	-
No. of cases restored to Register	-	-	-	-
No. of cases removed from Register during the year on account of having				
(a) Recovered	3	3	1	1
(b) Removed from district	1	-	-	1
(c) Died	1	1	-	-
(d) Diagnosis not established	2	-	-	-
(e) Lost sight of	-	1	1	1
No. of cases remaining on the Register on 31st December, 1969	69	31	2	2

Of the 2 cases listed under (c) above, both died from other primary causes.

## VACCINATION AND IMMUNISATION

### Vaccination Against Smallpox

The number of primary vaccinations of persons under 16 years of age reported to me during the year was 215, showing a decrease of 131 on the previous year.

	Age at date of vaccination				
	Years			Total	
	1	2-4	5-15	Clinics	By G.P.'s
Vaccinated	4	147	64	-	215
Re-vaccinated	1	3	1	-	5

### Diphtheria Immunisation

During the year notifications received from Medical Practitioners showed that 385 children were immunised against diphtheria. In addition 377 children received a boosting dose to improve their immunity.

During the year the Ministry introduced changes in the immunisation and vaccination schedules. The tables included are thus not comparable with the previous years figures.

The corresponding figures for 1968 were 955 and 690.

No case of diphtheria was notified during 1969, and it is now 19 years since a case of diphtheria has been notified in the Borough.

Diphtheria, Whooping Cough, Tetanus, Poliomyelitis and  
Measles Vaccinations of Persons under 16 years of age  
Completed During 1969

A. Completed Primary Courses - Number of Persons under age 16

Type of vaccine or dose	Year of birth					Others Under age 16	Total	
	1969	1968	1967	1966	1962 -65		At Clinics	By G.P.'s
Triple DTP	69	182	28	10	29	2	-	320

Diphtheria	-	-	-	-	-	-	-	-
Pertussis	-	-	-	-	-	-	-	-
Tetanus	-	-	7	-	8	8	-	23
Salk	-	-	-	-	-	-	-	-
Sabin	-	22	30	6	285	25	-	368

#### MEDICAL EXAMINATIONS

During the year 466 persons were referred to me for medical assessment. Of these 75 were examined in conjunction with the Corporation's Superannuation and Sickness Pay Scheme. 167 were County Staff or persons seeking entry into a Training College, 12 were of persons applying for a Taxi Driver's Licence, and 212 completed statements of medical history.

#### MORTUARY FACILITIES

The Corporation Mortuary was closed on 1st January, 1962, and the arrangements made with the South Cheshire Hospital Management Committee have continued entirely satisfactorily. During the year the Corporation paid fees in respect of 102 bodies received at the Crewe Memorial Hospital Mortuary.

#### CREWE AND DISTRICT COMMITTEE FOR MORAL WELFARE WORK

The Reverend O.J. Horrocks has supplied the following information on the work of the Committee during 1969.

"There were 105 applications for help during the year and 15 carried over from 1968. Of the 105, 80 were maternity cases, 33 mothers kept their baby, 25 babies were adopted, 1 was taken into care, 1 was still born, 10 have not yet arrived and 10 mothers are still deciding. Of the 15 from 1968, 10 mothers kept their baby and 5 gave them for adoption. There were 25 enquiries about adoption and social problems."

It must be borne in mind that the Committee's activities cover a larger area than the Borough of Crewe.

#### FOOD POISONING

103 cases of suspected food poisoning were reported during the year. However, after investigation, only 4 were confirmed.

#### SECTION 47 NATIONAL ASSISTANCE ACT, 1948 AND NATIONAL ASSISTANCE AMENDMENT ACT, 1951

Formal action was taken in respect of 2 elderly females, and one elderly male during the year.

ANNUAL REPORT OF  
THE CHIEF PUBLIC HEALTH INSPECTOR  
FOR THE YEAR 1969  
-----

Chief Public Health Inspector's  
Department,  
Municipal Buildings,  
Earle Street, CREWE.

October, 1970.

To the Mayor, Aldermen and  
Councillors of the Borough  
of Crewe.

Mr. Mayor, Ladies and Gentlemen,

I submit herewith my report of the work of the Public Health  
Inspector's Department for the year 1969.

The work of the Department, concerned as it is with environmental  
health and hygiene, is not spectacular but rather that of constant  
vigilance and inspection to maintain satisfactory standards in good  
living and working conditions, pure food and clean air. Steady progress  
was again made during 1969 and is shown in the statistics contained in  
the following report.

With the Council's fourth Smoke Control Order becoming operative  
on the 1st July, 1969, approximately one-third of the properties in the  
Borough were covered by such orders. Due to financial restrictions no  
further progress has been made with the Smoke Control programme while  
towards the end of the year, it was disappointing to find the first  
signs of the current shortage of solid smokeless fuel becoming apparent.

The department continued to co-operate with the Ministry of  
Technology in recording smoke and sulphur dioxide concentrations, and  
in this respect was fortunate in receiving the continued assistance of  
the staff of British Railways (Midland Region) Laboratory at Crewe.

In conclusion, I wish to take the opportunity of thanking the  
elected representatives, the staff of the department and other officers  
and their staffs for their help and support.

R.E. PLATT,

Chief Public Health Inspector.

SANITARY CIRCUMSTANCES OF THE AREA

PUBLIC CLEANSING

The removal of household and trade refuse is based on a weekly collection service and with the exception of holiday periods, this frequency of collection was maintained generally throughout the Borough.

The Cleansing Department operates a Refuse Disposal Plant and has a separate Garage and Workshop.

11 vehicles (including 1 spare vehicle) are employed on the collection of household and trade refuse and nightsoil, in addition to 1 vehicle used in connection with refuse disposal.

Household refuse collected	...	...	...	12,205 tons
Trade refuse collected	...	...	...	2,048 tons
				<hr/>
Total refuse collected by the Department during the year				14,253 tons

3,531 tons of shop and factory refuse were also brought to the Refuse Disposal Works for disposal, making a total of 17,784 tons of refuse dealt with during the year. 63.5% of the total refuse passed through the works while the remainder was disposed of by controlled tipping.

The estimated amount of nightsoil collected during the year was 156 tons.

A separate Annual Report is issued for the Public Cleansing service in the Borough.

SANITARY ACCOMMODATION

There are still a number of privy pails in the Borough, situated in the present unsewered northern area of the town.

## WATER SUPPLY

The water supply to the district is provided by the Mid and South East Cheshire Water Board. The water is not plumbo-solvent and all dwelling houses are supplied direct from the mains.

A copy of the typical characteristics of the water delivered to Crewe from Hurleston is given below:

### PHYSICAL CHARACTERISTICS

Clear, colourless, odourless and no deposit.

p.H. 7.2

### MINERAL CHARACTERISTICS

	<u>Parts per million</u>
Free ammonia ... ..	0.07
Albuminoid ammonia ... ..	0.14%
Nitrites ... ..	Nil
Nitrates ... ..	0.66
Total Hardness ... ..	155.00
Temporary hardness ... ..	105.00
Permanent hardness ... ..	50.00
Oxygen absorbed from $\text{KMnO}_4$ ... .. (4 hours $27^\circ\text{C}$ )	0.64
Lead and other heavy metals ... ..	negligible
Chlorides .... ..	26.00

37 samples of water taken from premises throughout the Borough were also submitted by my department for bacteriological and chemical examination and all but 4 proved satisfactory. Immediate notification of unsatisfactory samples is sent to the Water Board for their attention.

NUMBER OF NATURE OF COMPLAINTS

The Department received 1,651 complaints during the year from householders, shopkeepers and others relating to numerous matters, as set out in the table below.

NATURE OF COMPLAINT

Disrepair - General	...	...	...	...	...	...	...	78

# INFECTIOUS DISEASE AND DISINFECTION

Number of premises visited where a notifiable disease has occurred ... .. 19

Number of notified cases of suspected food poisoning visited ... .. 58

Number of Library Books disinfected -

(a) from Public Library ... .. 6

(b) from Private Libraries ... .. - ... 6

## DISINFESTATION

The following table shows the number of verminous premises treated during 1969.

	Number found to be infested		Number of Premises Disinfested
	Premises	Rooms	
Council Houses ...	16	51	16
Other Houses ...	10	35	10
Cases confirmed after complaint of infestation	19	-	-
Cases found by Public Health Inspectors...	7	-	-
Houses disinfested by Corporation ...	-	-	26
Houses disinfested by Contractors ...	-	-	-

The work of disinfestation was carried out by the use of D.D.T. and patent fumigant solutions.

In addition to the premises listed above, 139 houses were treated for infestations of beetles, ants, etc.

### SWIMMING BATHS

The only Public Swimming Baths in the Borough are owned by the Corporation and contain two swimming pools, slipper and private wash baths and various other amenities.

During the year, 37 samples of bath water were submitted for bacteriological and chemical examination and 6 samples were unsatisfactory, but subsequent samples proved satisfactory.

### OFFENSIVE TRADES

The following offensive trade is carried on in the Borough.

Bone Boiler and Fat Extractor ... 1

In addition to the above, 31 persons are registered under the Scrap Metal Dealers Act, 1964.

### RAG FLOCK

Number of licensed premises used for the  
manufacture of, or storage of Rag Flock ... -

Number of registered premises where  
filling materials are used ... ... 1

### COMMON LODGING HOUSES

There are no common Lodging Houses in the Borough.

HOUSING STATISTICS

1. Number of New Houses erected during the year:

TOTALS	1	13	1	2	-

RODENT CONTROL

The Corporation employ two full-time rodent operators and the extermination methods employed are poisoning, gassing and trapping. The following table summarises the work carried out:-

	Type of Property			Total
	Local Auth.	Dwell. Houses	Bus. Prem.	
<u>NUMBER OF PROPERTIES INSPECTED:</u>				
(1) Primary Inspections:				
(a) as a result of notification	27	304	49	380
(b) otherwise ... ..	-	251	-	251
(2) Re-inspections:				
(a) as a result of notification	-	18	3	21
(b) otherwise ... ..	-	16	-	16
Total Properties inspected ... ..	27	589	52	668
<u>Number of Properties found to be infested by RATS:</u>				
(1) Primary inspections:				
(a) Major ... ..	-	-	-	-
(b) Minor ... ..	17	461	22	500
(2) Re-infestations:				
(a) Major ... ..	-	-	-	-
(b) Minor ... ..	-	32	1	33
<u>Number of Properties found to be infested by MICE:</u>				
(1) Primary inspections ... ..	4	73	25	102
(2) Re-inspections ... ..	-	1	2	3
Total infestations found ... ..	21	567	50	638
<u>Number of infested Properties treated by Local Authority:</u>				
(1) Primary Treatments:				
(a) for RATS ... ..	15	486	15	516
(b) for MICE ... ..	3	85	24	112
(2) Treatments for re-infestation				
(a) for RATS ... ..	3	37	2	42
(b) for MICE ... ..	1	3	2	6
TOTAL Treatments... ..	22	611	43	676

NOTE: A treatment means a complete treatment for the destruction of rats and mice and includes not only the initial treatment, but when necessary, post-baiting and follow-up treatment.

RODENT CONTROL, Cont.

Following the treatments carried out, 836 rats and 294 mice were picked up, whilst the estimated kill was 3,542 rats and 824 mice.

During the year the rodent operators paid 6,344 visits in connection with the inspection and treatment of premises.

Two maintenance treatments of the sewers were also carried out. 917 manholes were baited and 637 takes of poison bait were recorded, showing an estimated kill of 1,450 rats.

PET ANIMALS ACT 1951

There are seven premises in the Borough licensed for the sale of pet animals. All these premises comply with the recommended conditions of the Royal Society for the Prevention of Cruelty to Animals, which were adopted by the Council.

# INSPECTION AND SUPERVISION OF FOOD

## FOOD HYGIENE

Food hygiene has continued to receive the attention of the public health inspectorate and 898 visits have been made for this purpose.

All plans of food premises submitted to the Borough Engineer are scrutinised for compliance with the various Acts and Regulations and where amendments are necessary the owner or architect is advised and corrections made before submission to the appropriate Committees. This system has worked very well indeed and architects and others have co-operated fully with the Department.

The following is a list of the various types of food premises in the Borough.

### Number and type of food premises

#### Premises requiring registration

For the manufacture of ice cream	...	...	...	3
For the storage and sale of ice cream	...	...	...	245
For the preparation and manufacture of sausages or pressed, potted or preserved meat, etc.	...	...	...	20

### FOOD HYGIENE REGULATIONS 1960

Type of premises	Number	Premises complying with Reg- ulation 16	Premises complying with Regu- lation 19
Fried fish shops	37	37	37
Wet fish shops	4	4	4
Bakehouses	9	9	9
Butchers	46	46	46
Restaurants and cafes	27	27	27
School canteens	14	14	14
Factory canteens	18	18	18
Licensed premises	106	106	106
Grocery and provisions	126	123	125
Cakes and confectionery	15	15	15
Sweets	30	30	30
Green grocery	26	26	26
TOTALS	458	455	457

## FOOD INSPECTION

There are no slaughterhouses in the Borough.

The following table shows the foods condemned during the year on account of decomposition, etc.

<u>CANNED FOODS</u>						lbs	
Meat	...	...	...	...		531	
Fruit	...	...	...	...		829	
Vegetables	...	...	...	...		1,068	
Fish	...	...	...	...		3	
Miscellaneous	...	...	...	...		26	2,457 lbs
<u>FROZEN FOODS</u>							
Meat	...	...	...	...		356	
Fish	...	...	...	...		627	
Vegetables	...	...	...	...		506	
Miscellaneous	...	...	...	...		142	1,631 lbs
<u>OTHER FOODS</u>							
Meat	...	...	...	...		878	
Fish	...	...	...	...		57	
Fruit	...	...	...	...		13	
Vegetables	...	...	...	...		48	
Cheese	...	...	...	...		1,949	
Miscellaneous	...	...	...	...		316	3,261 lbs
						TOTAL	<u>7,349 lbs</u>

## POULTRY INSPECTION

There is one poultry processing establishment within the Borough.

The number of birds processed during the year was as follows:

Broilers	...	...	...	...	...	79,407
Capons etc.	...	...	...	...	...	6,161
Hens	...	...	...	...	...	145,854
Turkeys	...	...	...	...	...	2,086
Ducks	...	...	...	...	...	-
Geese	...	...	...	...	...	-

Regular inspections are made of the premises to maintain a general oversight of production conditions and the methods of inspection of suspect poultry.

# ICE CREAM

Ice cream was manufactured at three premises in the Borough in 1969 while 254 premises were registered for the storage and sale of ice cream. A complete cold mix is used at two of the manufacturing premises in the Borough and pasteurisation at the other.

38 samples of ice cream were submitted for bacteriological examination and the results of the examinations are shown below.

Ice Cream	Methylene Blue Test Grading				TOTAL
	Grade 1	Grade 2	Grade 3	Grade 4	
Samples taken at manufacturing premises	12	4	1	4	21
Samples taken from retailers in the Borough	13	4	-	-	17
TOTALS	25	8	1	4	38

# SLAUGHTER OF ANIMALS ACT 1958

The number of slaughtermen's licences issued in 1969 was 11.

# KNACKER'S YARD

There is one Knacker's Yard in the Borough. These premises are not licensed for the slaughter of horses.

# MILK

## Designated Milk

Dealer's pre-packed licences    ...    ...    ...    ...    ...    128

## Pasteurised Milk

Establishments at which milk is pasteurised    ...    ...    Nil

### MILK SAMPLING

During the year, 135 samples of designated milks were taken for bacteriological examination and the following table provides details of the results.

No. of Samples	Description of Milk	Methylene Blue Test		Phosphatase Test		Turbidity Test	
		Passed	Failed	Passed	Failed	Passed	Failed
7	Untreated	6	1	-	-	-	-
92	Pasteurised	88	4	92	-	-	-
36	Sterilised	-	-	-	-	36	-
135	Total	94	5	92	-	36	-

### Brucella Abortus

2 samples of untreated milk was submitted to the Ring Test and proved negative.

### FOOD SAMPLES TAKEN FOR BACTERIOLOGICAL EXAMINATION

31 samples were taken during the year as follows:

28 of hot coffee, chocolate, tea or soup from vending machines  
11 of which were unsatisfactory due to the presence of faecal coli.

3 of general foodstuffs, all of which were satisfactory.

FOOD AND DRUGS ACT 1955

During the year no formal and 148 informal samples were submitted to the Public Analyst for analysis.

Nature of Samples	No. of Samples		Number of samples adulterated or not genuine
	Informal	Formal	
Milk	4	-	2
Meat and Meat Products	43	-	10
Fish and Fish Products	9	-	-
General Groceries	45	-	10
Preserves	7	-	1
Flour Confectionery	19	-	10
Sugar Confectionery	2	-	2
Ice Cream	5	-	-
Cordials	4	-	-
Vegetables	5	-	2
Medicines etc	4	-	1
Beer and spirits	1	-	-
	148	-	38
	148		

In addition to the above samples which were submitted to the Public Analyst 15 additional samples were brought to the office.

FOOD AND DRUGS ACT 1955

The table below shows details of the samples found not to be genuine or otherwise unsatisfactory and of the relative action taken.

Sample Number	Article	Adulteration or other irregularity	Action Taken
3578	Bottle of milk	Contained a mouse	Manufacturer fined £15.
3602	Peeled plum tomatoes	Contained wasps	Importer cautioned
3604	Loaf of bread	Contained iron scale	Manufacturer cautioned
3605	Peeled plum tomatoes	Contained a wasps head	Importer cautioned
3606	Tomato soup	Contained fat contaminated by metal from the container	Manufacturer cautioned
3607	Sugar	Contained metal scale	Manufacturer cautioned
3620	Stuffed pork roll	Contained glass	Manufacturer fined £10.
3633	Travel sickness tablets	Contained a Part I poison	Retailer cautioned
3639	Cheese rolls	Mouldy	Manufacturer cautioned
3640	Bottle of milk	Contained building mortar	Dairy firm cautioned
3643	Bread	Mouldy	Manufacturer cautioned
3644	Pork Pie	Contained plastic	Manufacturer cautioned
3672	Loaf of bread	Mouldy	Manufacturer cautioned
3673	Loaf of bread	contained plastic	Manufacturer cautioned
3681	Fruit tart	Mouldy	Manufacturer cautioned
3682	Loaf of bread	Mouldy	Manufacturer cautioned
3683	Liver and bacon croquettes	Mouldy	Manufacturer cautioned
3684	Processed brussel sprouts	Contained a piece of rubber	Manufacturer cautioned
3685	Corned beef	Contained blue bottles	Prosecution ordered, Warrant submitted & then case withdrawn
3686	Cheese slices	Mouldy	Vendor cautioned
3688	Minced steak and onion	Contained a piece of wire	Manufacturer fined £10.
3701	Baby food	Contained glass	Manufacturer cautioned

Sample Number	Article	Adulteration or other irregularity	Action Taken
3711	Loaf of bread	Mouldy	Manufacturer cautioned
3712	Fruit and nut chocolate	Infestation of Ephistia Larvae	Retailer fined £5.
3713	Vanilla slices	Mouldy	Retailer cautioned
3714	Baby food	Contained insects	Manufacturer cautioned
3725	Beefsteak & kidney pie	Deficient in kidney	Manufacturer cautioned
3728	Toffee	Contained a piece of stone	Manufacturer cautioned
3729	Fruit and nut cake	Contained a nail	Manufacturer cautioned
3730	Loaf of bread	Contained a flake of paint	Manufacturer cautioned
3731	Sausages	Contained a piece of plastic	Manufacturer fined £10.

### ATMOSPHERIC POLLUTION

The implementation of the provision of the Clean Air Act, 1956 once again occupied a proportion of the time of the public health inspectorate and 2,412 inspections were made under the Act.

8 notifications were received of 'intention to install' furnaces under Section 3 of the Act.

The Borough of Crewe No. 1 (Marshfield Bank and Wistaston Green) Smoke Control Order, 1960 covering some 270 acres on the westerly side of the borough, and affecting some 1,085 properties came into operation on the 1st October, 1962.

A second order, known as the Borough of Crewe No. 2 (Wistaston Green and The Valley) Smoke Control Order, 1964, which covers 208 acres and 1,028 properties in an area adjacent to and to the east of the first area, became operative on the 1st July, 1966.

The Borough of Crewe No. 3 (Ruskin Park) Smoke Control Order, 1966 became operative on the 1st July, 1967. This Order covers 224 acres and 1,670 properties in an area adjacent to and to the south east of No. 2 area.

The Borough of Crewe No. 4 (Nantwich Road South) Smoke Control Order, 1967, which covers 235 acres and 1,793 properties, became operative on the 1st July, 1969.

The department has, since 1949, in co-operation with the Ministry of Technology, made regular monthly recordings of the degree of air pollution throughout the borough. The analyses of the readings of the various stations are shown in the appended tables and graphs.

In 1961, Crewe was selected as one of 120 towns to take part in a National Survey of Atmospheric Pollution and five additional sets of instruments were installed at particular sites in the district, but one site at the College annexe, Railton Avenue, has now been discontinued.

The sites selected cover four types of district in accordance with the recommendations of the Ministry of Technology as follows:

#### Crewe Site

- |                                                     |                                                                   |
|-----------------------------------------------------|-------------------------------------------------------------------|
| (A) Residential area with a high population density | Stalbridge Road Clinic                                            |
| (B) Industrial area                                 | Railway Works                                                     |
| (C) Commercial area                                 | Rear of Municipal Buildings                                       |
| (D) Smoke control area                              | Sewages Works transferred to Queens Park Nursery, November, 1968. |

The results obtained are collated by the Warren Spring Laboratory of the Ministry of Technology.
